10:10		X		
10:30			X	X
11:50	X			
12:12		X		
12:50				X
2:30	X	X		
3:00			X	X
4:15		X		
4:05				X
5:30				X
6:05		X		
6:35	X			
7:30			X	X
8:35	X			
9:40	X			
11:00	X	X		

Times shown are guesses between Springfield and Windsor Locks

*This sheet is stolen from us repeatedly.  
The Railroad may not be dead.*

1. Buy and install an additional Storage shed for care of our equipment.  
We have asked the Zak fund for the money to purchase a shed  
We will this week ask the DEEP for permission to place the shed on their property!  
The location will be on the northwest corner of the Parking Lot
2. ~~Form a committee to inspect the surface of the trail in Suffield and Windsor Locks~~  
The surface is heavily cracked and needs repair to make it safe.  
We ask that one person from each town with knowledge of road repair be named to the committee with the purpose of recommending corrective action to DEEP.
3. Form a committee to prescribe how to protect the Poplar trees from the hungry Beavers.  
Committee to include Tree wardens from DEEP, Windsor Locks, Suffield and Ahlstrom Dexter LLC  
Committee to answer for Friends of the Canal.
4. Ask DEEP to build additional trails in the Canal Road end of the State Park
5. Ask DEEP to add lands and features on the East bank (Enfield) side of the Great Enfield Falls  
Trail from Railroad Bridge to Rt 190 Bridge. and across to canal trail.  
Trail from Railroad Bridge south to the Rt 140 Bridge and across to Canal trail.  
Trail across the railroad bridge to connect Canal Trail and East Side Trails  
This would complete a figure eight for bikers, Roller blades and walkers.  
Fix Guard Lock to operating condition. Buy a canal boat to travel north of Rt 140 Bridge to T'ville; Six Flags, Springfield, Holyoke and return...  
Build a bridge and Trail from T'ville over old bridge piers and south to Canal trail on West bank..  
This gives the Park a double eight and rail commuters access to the future Commuter Rail. Station...  
Build an east bank trail from Rt 190 Bridge to Bridge Lane to enhance to old copper mine.  
Build a powder Warehouse at Bridge Lane to honor the Hazard Powder Company.  
Build a railroad track curve between main line and Suffield spur for access to Bradley Field Museum.  
Add road trolley to Trolley Museum at Warehouse Point

DEEP Should establish an Enfield Falls Park !!
